**FOR
DREAMERS
WORLDWIDE**

TICKETTOTHEMOON

Since 1996, Ticket to the Moon has been the original parachute nylon hammock manufacturer. Designed and created by travellers for travellers, our hammocks are tested in every climate around the world.

Once you try a moon hammock, you'll never miss your tent again! Enjoy a comfortable sleep and «off the ground» protection from water, insects and small animals. Ticket to the Moon parachute hammocks have many handy attributes: lightweight yet strong, spacious but portable, set up and take down in under a minute, rot-resistant, machine washable and fast drying. The elastic nylon adjusts perfectly to your body contours, allowing for optimal blood circulation.

Hanging a hammock is often allowed where pitching a tent is not. Our hammocks are delivered with stainless steel S-hooks or high-grade aluminium carabiners. Ticket to the

Moon hammocks are ideal for every occasion; whether you are travelling, spending a day in the park with friends, or just staying at home. Play, relax, take a nap or sleep all night in your Moon Hammock!

The patented moon-shaped Express Setting Bag ensures that your hammock doesn't touch the ground when installing or packing up. The pouch is also a comfortable neck pillow when travelling, and it can be removed and stuffed with clothes for use as a pillow in your hammock. A side-stuffing pouch lets you keep your gadgets, books or torch at hand, and allows for convenient storage.

To personalize your hammock camping adventure, we offer a range of accessories including easy to use suspension systems, tarps, bug nets, insulation and eco-friendly bags.

TRAVEL HAMMOCKS

COMPACT (TMC)

If minimalism and great value is your motto, then the Compact hammock is made for you. This stitchless hammock is durable, comfortable, easy to use and beautiful! It is the perfect entry level hammock for young users.

ORIGINAL (TMO)

Our most famous and best-selling hammock. Wide and colourful, it delivers an amazing all night sleep at music festivals, late-night bonfires, in backyards, gardens and deep jungles. Featuring triple stitching, this is a genuinely durable and reliable companion.

KING SIZE (TMK)

An even wider version of the Original Hammock, ideal for taller users or for anyone looking for extra comfort in life. There is enough room for a friend, to share that unforgettable sunset with.

HONEYMOON (TMHM)

The Honeymoon Hammock is the ultimate option for those who aim for maximum comfort. It is much more spacious than a King Size, yet easier to install than our Mam-mock. You might even consider adding a mattress inside and get surprised by this sensation.

MAMMOK (TMM)

The Mammoth is our biggest hammock, it was designed with parties and fun in mind. The center of attention in any garden, event or school, the Mammoth easily accommodates you and your friends, with room for a chat, a laugh or even a dance!

MINI (TMMI)

The Mini Hammock is a very versatile piece of gear. A great hammock for the first years of life, and it also works brilliantly to keep your gear off the ground. Alternatively, use it as a hammock-chair, unless your pet claims it first.

EXPRESS SETTING BAG

This unique and versatile feature comes together with all our hammocks and adds tremendously to their functionality. It enables you to set up and take down the hammock quickly.

HAMMOCK SLEEVE (TMHS)

Protection for your hammock, like the skin of a snake. An essential optional accessory if you plan to leave it in the sun for an extended time. It keeps your hammock clean and stops the wind from flapping it around when not in use.

SUSPENSION OVERVIEW

NAUTICAL ROPE KIT (TMNR)

Extremely durable, sturdy and safe rope hanging system. This minimalistic approach, invented by Ticket to the Moon more than 20 years ago, changed the hammock world forever. Anyone can hang a hammock in seconds, without

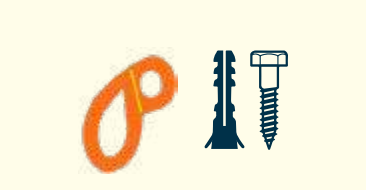

Specs 2 x L 2,4 m ø 5 mm preknotted	Material 100% Nylon
Weight 230 g	
Max. load 200 kg	

MOON STRAPS (TMSTRAP)

This daisy-chain webbing is tree-friendly, super strong, anti-slip, and extremely easy to use. Perfect for application on trees with a sensitive bark, or for hammocks that are used by more than one individual.

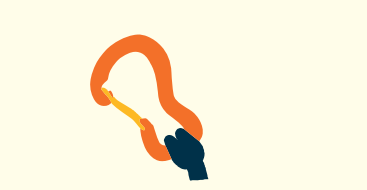

Specs 2 x L 2,6 m W 2 cm	
Weight 216 g	
Max. load 200 kg	
Material 100% Polyester	

HAMMOCK ANCHOR (TMWALL)

When back home from your travels, why not set up your hammock in the living room? A perfect place to read a book, plan your next trip, or simply enjoy some well deserved relax time. Suitable for application on concrete, bricks and wood.

Max. load 200 kg
Material Stainless Steel
Set of 2 hangers with screws, washers and fisher plugs.

CARABINER 10 (TMBINER10)

If you plan to leave your hammock up, or feel the need for extra safety for your joyfully playing children, upgrade to our weight-rated carabiners. More so, you will appreciate the additional comfort in setting up your hammock.

Material	
A6061	
Weight	
25,7 g	
Size	
8 x 5 cm

CARABINER 06 (TMBINER06)

We designed the “06 carabiner” as the most lightweight option. Strong enough in any situation with its 600kg closed gate rating, it has a custom eyelet for ropes like our HMPE core ropes. Suitable for our Lightest Hammock, it also works as high-strength accessory carabiner.

Material A6061
Weight 6 g
Size 4,5 x 2,6 cm
0 6 kN

LIGHTEST STRAPS (TMLSTRAP)

Our incredibly light and strong tree-hugger straps combined with the HMPE core ropes are the best match for the Lightest hammock. Extra compact yet fully protecting trees.

Specs 2x L 2,5 m
Tree-hugger 2 x L 0,9 m - W 20 mm
Rope 2 x L 1,6 m ø 3 mm

Weight 90 g

Max. load 150 kg

Material Strap: 100% Polyester (PE)

Cord: HMPE/PE

➔ **OUR LIGHTEST HAMMOCK** (TML)

Material 34g/m² Crinkle Nylon
Weight 228 g
Length 320 cm (carabiner to carabiner)
Width 140 cm

- Lightweight Design
- High Grade Nylon
- Packed in Express Setting Bag

When going far and every gram counts, even a conventional travel hammock may be too heavy. After many years of searching for an even lighter fabric that provides the level of safety and comfort typical for Ticket to the Moon, we are excited to introduce our Lightest Collection.

The Lightest is a special setup, that is made of a locally produced, high-performance crinkle nylon textile. Our most technical hammock is longer than most Ultra Light hammocks, with a full length of 320 cm. We created an incredibly light hammock without compromises in comfort, even for taller people. The use of special HMPE/PE-cords further reduces weight and volume. It weights only only 318 grams including express setting moon bag and mini-carabiners. The ultra-thin material packs away extremely small, making it the first hammock you can truly bring anywhere, always.

THE LIGHTEST

TARPS & BUG NET

TICKETTOTHAMOON

photo by Nicolas Tempier

① **HAMMOCK TARP** (TMTARP)

Material PU - treated ripstop nylon
Weight 700 g
Size 350 x 350 cm (diagonally)

- Waterproof 2000 mm
- Covers all TTTM hammocks except Perfect and Mammoth
- Shields from rain / sun / wind
- Includes 2x Y shape Aluminium 15 cm pegs and 4 adjustable guy-lines
- Quick release buckles for easy set-up
- Compact and lightweight
- Comes in Moon Pouch

This diamond-shaped tarp can be used with standard hammocks, or on its own as instant protection from the elements. The reinforced seam-sealed corners and tie-out points make it very durable and adaptable. Four additional eye-lets allow for different set-up modes using additional cordage or poles. The adjustable guy-lines are kept in convenient corner pockets for safekeeping.

② **CONVERTIBLE BUG NET 360°** (TMNET)

Netting 200 mesh openings / cm²
Weight 450 g
Size 300 x 130 cm

- Double zipper opens entire top
- Includes adjustable ridgeline
- In Green, white or black
- 360° protection
- Extra fine mesh
- 100% polyester
- Washable at 30°C
- Mildew resistant
- Compact and lightweight

➔ **FULL MOON TARP**
(TMFMTARP)

Material	20D ripstop Sil-Nylon
Min. weight	588 g (4guy ropes)
Max. weight	750 g
Size	310 x 295 cm
Diagonal	428 cm

- Waterproof 2000 mm
- Covers all TTTM hammocks except Mammock
- Shields from rain / sun / wind
- Includes 6x Y shape Alumunium 15 cm pegs and 12 adjustable guy-lines
- Quick release buckles for easy set-up
- Compact and lightweight
- Comes in Moon Pouch

The Full Moon tarp is advanced all weather protection that you can setup in a variety of configurations. Be it as an A-frame tent-like shelter in challenging weather, or as a diamond tarp with maximum airflow and visibility in milder conditions, we have you covered.

Thanks to the durable, high grade Sil-Nylon 20D Fabric, this tarp is not only fully waterproof and lightweight, but it is very quiet even in heavy rain.

The reinforced corners and seam-sealed tie-out points make it very durable and adaptable. Very packable and portable at a minimum trail weight of only 588g, the Full Moon tarp comes with tie-out points everywhere you need them, 6 pegs and all the cordage required to guy it out or stake it down.

WAYS TO USE

➔ **LIGHTEST TARP** (TMLTARP)

Material	20D ripstop Sil-Nylon
Min. weight	373 g
Max. weight	412 g
Size	250 x 250 cm
Diagonal	350 cm

- Waterproof 2000 mm
- Covers all TTTM hammocks except Honeymoon and Mammock
- Shields from rain / sun / wind
- Includes 2x Y shape Alumunium 15 cm pegs and 4 adjustable guy-lines
- Quick release buckles for easy set-up
- Compact and lightweight
- Comes in Moon Pouch

Fast protection from rain, sun and wind, while cutting weight to a minimum!

Install it high for maximal shadow and air-flow, or low to keep rain and wind away. The reinforced sides, corners and tie-out points make this minimalist piece of gear surprisingly sturdy. The Sil-Nylon 20D material enables the Lightest Tarp to offer full features, as it comes with quick-release tension buckles on all four corners, two pegs and extra tie-out eye-lets.

The four extra eye-lets, halfway the sides, make it highly adaptable to create a porch or awning with additional poles and cords. All guy lines are kept conveniently in pockets so they don't get tangled.

➔ **MOONQUILT** (TMQ)

Weight	1380 g (1280 g without hood)
Size	200 x 140 cm
Material	70D/210T Polyester (outer) 50D/320T Polyester (inner)
Filling	Polyester Hollow Fibre 13,5 TOG
Temp. Range	Moonquilt 5°C to 18°C (approx.) Sleeping Bag 10°C / 5°C / 2°C (Comfort / Limit / Extreme)

- 100% Polyester
- Detachable Hood
- Machine Washable at 30°C
- Mildew Resistant
- Compact

The Moonquilt keeps your back and legs warm while allowing you to move freely in your hammock. In windy conditions, you can zip-up the synthetic three-season underquilt, so it completely envelops you and your hammock.

The two zippers and adjustable shock-cords let you conveniently adjust the level of insulation from within your hammock. Packing is easy with the smart compression bag, which can hold your Moonquilt, hammock, Bug Net and suspension, allowing you to set it up and take it down in one go. Small pockets on the corners keep cords and mini carabiners neatly packed away, when using it as a sleeping bag or blanket. In style, we also include a pouch to keep essentials at hand.

Sleeping Bag and Blanket Use

MOONQUILT

MOONCHAIR

TICKETTOTHEMOON

photo by Nicolas Tempier

← **MOONCHAIR** (TMMC)

Weight	1700 g
Maximum load	120 kg
Aluminium tubing	ø 2.4 cm

- High-grade parachute nylon
- Skin friendly
- Fast drying
- Mildew resistant

Strong, durable and easy to bring along. A comfortable chair that releases all pressure from your spine thanks to its smart stainless steel angle adjustment ring. Using our signature nylon fabric in combination with aluminium tubing and quality webbing, the foldable chair is just ideal for gaming at home, as an exotic feature at home, or to doze off after a day's hike. The set is complete with its carrying case, a footrest, suspension rope and a 10kN carabiner.

MINI MOONCHAIR (TMMMC)

Weight	660 g
Maximum load	60 kg
Aluminium tubing	ø 1.9 cm

A special smaller Moonchair for young dreamers up to 12 years of age. A great gift that will bring years of joy.

1 **MINI BACKPACK (TMBP)**

Specs	28 x 42 x 15 cm
Weight	105 g
Capacity	15 liters
Carrying Capacity	15 kg

It is a helpful companion that will save the day, every day! Since it was launched in 2012, our Mini Backpack has been refined several times, and now features supreme comfort and superb functionality.

smart stuffing
pouch

BACKPACK PLUS (TMBPP)

New

Specs	48 x 50 x 20 cm
Weight	178 g
Capacity	25 liters
Carrying Capacity	15 kg

We had our mini backpack for years, and it became a popular choice for travellers around the world. Answering to our most demanding users, we developed a larger version with even more features.

The Backpack Plus easily fits 15" laptops and has four practical compartments for flexibility in organizing. The secret pocket keeps your valuables safe. The chest strap holds the shoulder straps in place to let you carry the Backpack Plus easily.

ECO BAGS

photo by Nicolas Tempier

Foldable, compact, reusable, super strong & super light, eco-bags help to avoid single-use plastic bags!

“No plastic bags, please” is a motto we live by, and so do our customers. Eco-friendly bags are produced from the offcuts of Ticket to the Moon hammocks. They not only spare the planet thousands of plastic bags every year, but they’re also ideal gifts. When not in use, they pack away neatly in their stuffing pouch.

➔ **MARKETBAG (TMSB)**

Specs	46 x 42 cm
Weight	55 g
Capacity	20 liters
Carrying Capacity	15 kg

The 20-liter Marketbag is the most popular size in our eco-bag collection. The double handles and strap allow for carrying your things with ease. Hammock fabric is washable, so you can reuse your bag again and again. It certainly is a durable alternative for plastic bags. You will appreciate the two hidden handles that provide you with additional carrying options.

SUPER MARKETBAG (TMKB)

Specs	58 x 50 cm
Weight	75 g
Capacity	40 liters
Carrying Capacity	15 kg

Currently our largest bag, the Super Marketbag, is great for weekly or monthly shopping. While on holiday, the breathable material is great for carrying wet towels and swimwear.

TICKETTOTHAMOON

POCKET FRISBEE (TMFRIS)

Specs ø 25 cm
Weight 150 g

The Pocket Frisbee is the ultimate toy for all ages: fun to throw and easy to bring along.

The sand filled rim makes it fly perfectly, without fear of hurting anyone or rolling away. Because it doesn't have hard sharp edges, it is great for indoor use and for pool parties. It folds up in a small pouch for carrying and safe-keeping.

→ *BEACH BLANKET (TMBB)*

Specs 213 x 213 cm
Weight 420 g

- High-grade parachute nylon silk
- Skin friendly
- Fast drying
- Mildew-resistant
- Compact and lightweight

This convenient picnic blanket provides an instant footprint for your hammock, or anywhere you want your feet off the ground. The tent peg loops and corner pockets, for sand or rocks, make sure it always stays in place. You can also use the beach blanket as a sun shield or as a wind deflector, by attaching ropes to the loops. Ticket to the Moon Beach Blankets pack in a detachable Full Moon Pouch.

THE TRIBE

TICKETTOTHAMOON

photo by Jakob Kolar

THE MANUFACTURER AND THE BRAND

Ticket to the Moon is an ethical company, we love to think that we are more like some kind of tribe rather than just a business: not only do we develop and create innovative and useful products, we also promote different and more sustainable ways of life.

“Feel-good products for dreamers worldwide!”

SAFE, COMFORTABLE, HIGH QUALITY

Because we design and construct our gear in-house, we can offer you the very best products and include the exact features you desire. Constant product analysis and development in our ongoing utopian search for perfection, keeps us at the forefront of innovation in hammock manufacturing.

The entire range of Moon Hammocks, from our Original to the technically advanced Lightest, is hand-made by our team of experienced craftspeople, some of whom have been with us since the beginning. Using only the highest quality materials, every one of our products is tested under extreme conditions and passes strict quality control procedures before it is shipped to you.

The 10-year manufacturer’s warranty covers any defects in workmanship and materials on all Ticket to the Moon products. The signature range of hammocks is durable, elastic, breathable, anti-mildew and skin-friendly (OEKO-TEX® Standard 100). Moon Hammocks are available in different fabrics, sizes and colours.

LIGHTWEIGHT, PACKABLE & DURABLE

Ticket to the Moon hammocks are designed to make your life easier, lending a helping hand or providing instant joy time and again. The original TTTM set-up using stainless steel S-hooks and nautical ropes remains the most economical, easiest and safest all in one hammock solution on the market. Higher weight capacities can be achieved with the use of high-grade carabiners and tree-friendly Moon straps, this is especially important for the oversized hammocks or for extreme-hammocking.

All our products are designed to be equally suitable on a serious adventurer’s trip and for daily use.

“Join The Hammock Tribe!”

TICKET TO THE MOON FAMILY

While it is important for us to offer original products that you will enjoy using, we also aim to raise awareness of larger global challenges such as sustainability and fair trade production issues. In all our operations we aim to bring advancement to the community while respecting the local social structures.

All our employees are over 18 years of age. Our honest, humane and fair trade corporate values mean that all staff within the TTTM family enjoy proper working conditions with social security, a pension, and an average salary that is far higher than the minimum. A percentage of our profit is annually redistributed equally between employees, based on the number of years they have been with us. More so, they can join Yoga, Tai-Chi, Kung-Fu, English, and tailor courses free of charge, every week. We are very proud that staff turnover is only 1.5% per year, which clearly underlines that everybody bonds into a unique social tribe, passionate about flying to the moon.

MINIMIZING OUR CARBON FOOTPRINT

By using locally sourced materials and investing in innovative recycling methods, we aim to have a minimal impact on the environment. This includes product and packaging design issues, and aspects of local manufacturing. Any spare fabric is turned into eco-friendly products.

The ongoing urge to minimize our carbon footprint engendered the motto: "nothing is left to waste because we care."

FOUNDATION

photo by Nicolas Tempier

TICKETTOTHAMOON

CORPORATE SOCIAL RESPONSIBILITY

The Ticket to the Moon Foundation was established after three years of field experience. Since 2006, a relief project was conducted by travellers in Mandorak County, in the north-west of the remote Indonesian island of Sumba.

Sensitive to the native circumstances, these travellers teamed up with the locals to help the indigenous Kodi people to improve their living conditions and build resilience, while preserving the ancestral culture. Many concrete changes have been realized – new roads were built to facilitate trade and to bridge the gap between the Kodi and other tribes. We dug a Photovoltaic-powered water well for clean water access and built a primary school to teach Indonesian language and a standardized curriculum. In addition, we maintain ongoing programs that provide aid in education, sustainable economic development, renewable electricity and health-care. The Kodi have successfully reduced the number of malaria victims, with the use of the mosquito nets that we provided. Every effort is made to balance the enhancements in living standards with the preservation of local culture, flora and fauna.
